

# Списък на публикации в специализирани научни издания (неповтарящи включените в дисертацията)

1. Enhancement and suppression of protein crystal nucleation due to electrically-driven convection.  
A. Penkova, O. Gliko, Ivaylo Dimitrov, F. Hodzhaoglu, Chr. Nanev, and P. Vekilov.  
*J. Cryst. Growth*, **275**(1-2) (2005) e1527-e1532 (IF)
2. Layered crystals of apo- and holoferritin grown by alternating crystallization.  
Chr. N. Nanev and I. L. Dimitrov  
*Cryst. Res. Technol.* **44**(9) (2009) 908–914 (IF)
3. Growth of rhombohedral insulin crystals and in vitro modeling of their dissolution in the bloodstream.  
C. N. Nanev, I. L. Dimitrov, F. V. Hodzhaoglu  
*Cryst. Res. Technol.* **46**(2) (2011) 119-126 (IF)
4. Kinetics of insulin crystal nucleation, energy barrier and nucleus size.  
C. N. Nanev, F. V. Hodzhaoglu, I. L. Dimitrov  
*Cryst. Growth Des.* **11**(1) (2011) 196-202 (IF)
5. Aspects of Protein Crystal Nucleation and Growth in Forced Sedimentation.  
I. Dimitrov  
*Journal of Scientific Review* **4** (1) (2012) 189-195
6. In Vitro Dissolution of Insulin Crystal Polymorphs at Model Conditions Relevant to In Vivo Environment.  
I. Dimitrov, F. Hodzhaoglu, and I. Ivanov  
*Dissolution Technologies* **20**(4) (2013) 11-16 (IF)
7. Probabilistic approach to lysozyme crystal nucleation kinetics.  
Ivaylo L. Dimitrov, Feyzim V. Hodzhaoglu and Dobryana P. Koleva  
*J Biol Phys.* **41** (2015) 327–338 (IF)
8. Optimization of the classical method for nucleation and growth of rhombohedral insulin crystals by pH titration and screening.  
F. V. Hodzhaoglu, M. Conejero-Muriel, I. L. Dimitrov, J. A. Gavira  
*Bulgarian Chemical Communications* **48**, Special Issue A (2016) 29-37 (IF)
9. A view on the aggregation issue in lysozyme crystallization.  
Ivaylo L. Dimitrov, Dobryana P. Koleva, Feyzim V. Hodzhaoglu  
*CrystEngComm* **18** (2016) 7095-7103 (IF)
10. Crystallization of apoferritin in temperature gradient at high non-denaturing temperatures.  
Ivaylo L. Dimitrov  
*Comptes Rendus De L'academie Bulgare Des Sciences*, **70**(5) (2017) 639-644 (IF)
